Peace of mind

green&clean Rack Type Dishwasher
The backbone of your business

You talk...

The ideal rack type dishwasher for my business would be **efficient, economic to run and quick and easy to maintain**. We handle heavy loads of dishes and it is vital that they come out **perfectly clean and sanitized** all day, every day. Reliability is essential. Break downs and downtime for complex daily maintenance are frustrating and costly. The easier to use the dishwasher, the better

...we listen

Want to cut running costs, have brilliantly clean, sanitized dishes and make use and maintenance really simple? Introducing the new green&clean rack type dishwasher

Green
Lowest running
costs in the industry

hygiene

The backbone of your business

With the **lowest running costs in the industry** and guaranteed results load after load the new **green&clean rack type dishwasher** from Electrolux is the best in class for sustainability and reliability making it the **backbone of your business**

Lowest running costs in the industry

Save **€3.240*** a year. Using just one of glass of water per rack, green&clean's innovative rinse module uses less water, less electricity, less detergent and less rinse aid

Green

Consistent performance

Say goodbye to manual descaling and keep maximum efficiency to continue performing over time with automatic **ZERO LIME** descaling device

Easy

Made-to-measure

Creating the ideal rack type for you couldn't be easier and if your needs change, green&clean's innovative modular system means custom options and upgrades can be added on-site whenever you like. Ask your dealer to configure the ideal solution for you

Simple to use

green&clean's touchscreen interface talks your language. Different users. Different information. Easy to understand technical info and guided troubleshooting for fast fixes

Green

Completely Ventless

Steam-free surroundings and no spend on ventilation with green&clean **NATURALLY VENTLESS** solution

Clean

Brilliant washing results

Perfectly clean plates at every use thanks to the advanced **CLEAR BLUE** filtering system that keeps water cleaner for longer

Safe

Guaranteed sanitation

Perfectly hygienic results with **WASH-SAFE CONTROL** guaranteeing constant **85 °C** rinse temperature

performance

Lowest running costs in the industry

**WASH ONE RACK
WITH JUST ONE
GLASS OF WATER**

Save **€3.240*** washing
500 meals/peak hour
twice a day

Scan
to discover more

One glass of water

Completely remove detergent and sanitize wares using just 0.4 liters of fresh water per rack. green&clean's innovative multi-rinse module only uses fresh mains water for the final rinse. This water is filtered and recycled twice using a twin-tanks configuration with a **6 rinse arms system**

* Cost savings are calculated by Electrolux Professional Lab which is accredited by IMQ, INTERTEK, ENERGY STAR measurement. Comparison made between green&clean rack type dishwasher and an equivalent conventional machine using 300 l/hour for rinsing at 10 °C inlet, for a staff canteen serving 500 meals/peak hour twice a day over 360 days period

The only steam-free comfort zone

Better for you. Better for the environment. Make your dishwash area steam free. green&clean are the only rack type dishwashers on the market equipped with a CO₂ heat pump combined with air conveyors to deliver a **NATURALLY VENTLESS** result

Steam-free savings

No investment in ventilation and a cooler, healthier dishwash area. **NATURALLY VENTLESS** green&clean rack type with a CO₂ heat pump completely absorb steam. No direct extraction needed according to UNI ISO EN 7730 norm, VDI 2052 guideline and DW/172 UK regulation.

The first ever heat pump for catering applications using CO₂ means not other harmful gases uses:

- ▶ no greenhouse effect or ozone depletion. CO₂ is also safe to release in the air and is non-toxic and non-flammable
- ▶ no surprises on cost as CO₂ is a non-patentable gas
- ▶ ideal for use in countries with naturally warm tap water too as works with water inlet temperatures up to 30 °C
- ▶ keeps productivity higher with a cooler dishwash area by extracting and cooling warm ambient air

- CO₂

**Dramatically reduce
CO₂ emissions.**

**16.415 kWh saved/year
are equivalent to driving
44.495 Km a year by car
with zero emission***

Extra savings and comfort with **NATURALLY VENTLESS**

* Calculated by EPA (US Environmental Protection Agency)

Good for the environment, good for your pocket

One glass of water, that's all it takes to clean and sanitize an entire rack of dirty dishes with the new green & clean rack type dishwasher. Superior performance combined with savings in water, energy and chemicals

 Use 63%
less water

Using just 0.4 liters of water per rack with guaranteed washing performance you **save 800 €/year**

SAVE 3.240

* See page n. 6

Use 34% less energy

Save 1585 €/year on energy and say goodbye to manual descaling. No limescale build-up means heating elements at maximum efficiency to continue performing over time with automatic **ZERO LIME** descaling device

Extra savings, 50% less energy

Increase further savings up to 2.300 €/year on energy cost with **NATURALLY VENTLESS** heat pump solution

Use 62% less detergent and rinse aid

Better for the environment. Better for your pocket. **Saving you 855 €/year** on detergent and rinse aid

Scan to discover your savings with the online Needs Matcher

Brilliant washing performance

Brilliantly clean tableware, utensils, trays and gastronorm containers.
green&clean's **CLEAR BLUE Filtering System** keep water free from food residues

Outstanding washing performance

Spotlessly clean wares and no downtime to change water. **CLEAR BLUE Filtering System** removes all trace of food residue from the wash water thus improving detergent efficiency and giving outstanding results. With an inclined tank filter, food debris is collected, guided through a multi-stage filtering system and then flushed away

95%

of food residue filtered means superbly clean results, less maintenance and less downtime

Greater savings and performance with Optimized Cascade Effect

Minimize water and energy consumption and get even cleaner wares with no downtime for water replenishment. Even large items like trays and boxes come out perfectly clean with **Optimized Cascade Effect** which uses built-in sensors to automatically transfer just the right quantity of water from the triple-rinse tank to the wash tank using a small by-pass pump

Safety is peace of mind

No more worries, sanitation is always under control. **WASH•SAFE CONTROL**: the rinse quality is guaranteed thanks to the constant rinsing temperature and the water pressure which is independent from the mains

Perfect sanitation

Sanitation and rinse quality are guaranteed with green&clean's **WASH•SAFE CONTROL**. It maintains a constant rinse temperature of 85 °C thanks to a hydraulic system featuring as standard air gap and 3 rinse pumps

85 °C

constant rinse
temperature means
maximum level
of hygiene

Best-in-class safety

NSF and DIN 10510 compliant

The new green&clean rack type complies with:

- ▶ **North American NSF/ANSI 3: Commercial Warewashing Equipment** standard for wares sanitation
- ▶ **German DIN 10510: Food hygiene - Commercial dishwashing with multitank-transportdishwashers - Hygiene requirements, procedure testing** standard for hygiene requirements of multitank dishwashers

NSF/DIN 10510

The simple touch

green&clean's touchscreen interface talks your language

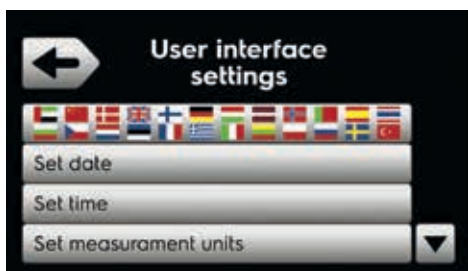

up to 30 languages and a new simple touch panel

Using clean&green couldn't be easier. Simple graphics guide the user through the quick and easy steps to access different options. Different users. Different information

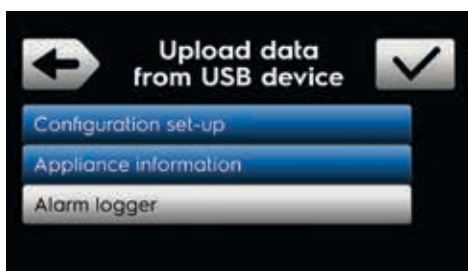

Operator

Simple animations and little text make everyday use foolproof

Internal maintenance staff

Easy to access, easy to understand technical info and protected access with a level 1 password

Electrolux Authorized Service Partners

Faster troubleshooting with at a glance technical information and protected access with a level 2 password

Reliability is something serious

Best in class reliability. green&clean rack type dishwashers are far more reliable than conventional machines on the market

This is how we prove it: the difference is in the details

a. Reliability tested. We used **10 automotive final test boards** to make the power and the connections reliable

b. Stress test passed. **7 times longer life time** compared to conventional rack type dishwashers. Tested in the Electrolux Research&Development Lab and certified by Intertek

c. No fire hazard or loose connections with hard wired heating elements

d. No chance of damage caused by floor cleaners as external bottom panel is flat and fully sealed

e. Protection from heat and moisture with separate cabinet for electrical components

f. **IP25** rating so not damageable by small animals like mice and protected from water jets from any direction. Water and moisture resistant connectors, and double sided, double layer coated electronic boards with surge protections

No more downtime with the NON-STOP automatic backup mode

Keep washing, even if something goes wrong. No more stoppages or hand washing while waiting for a service engineer.

green&clean rack type dishwashers automatically adopt a different working mode, bypassing faults, to continue washing.

Built-in sensors rapidly identify any issues and activate back-up modes such as altering pump flow, water transfer or speed level

1. When a warning message is notified, push the **CONTINUE** button to activate the NON-STOP automatic backup mode

2. Your green&clean rack type switches into a back up mode to allow you to wash, but the **warning sign** ⚠️ reminds to the operator to ask for a service check

Guided troubleshooting for fast fixes

Troubleshooting is guided by the machine and service intervention is only requested when strictly necessary

Open cold water notification

a. Keep downtime down

300 simple, precise notifications identify any issues and the components involved.

23 easy-to-follow troubleshooting processes

guide the operator, the internal maintenance staff or the Electrolux Authorized Service Technician **to a quick diagnosis and fast resolution** directly from the touch screen interface. For example if waterflow is an issue, the operator is led through basic checks (eg water tap on, overflow pipe in place). Service engineer intervention is only suggested when absolutely necessary

Clean tank filter notification

Insert overflow notification

b. Hassle-free maintenance and repairs. No need to move the machine

Faster check-ups and repairs with easy front access to all components

green&clean

Electrolux

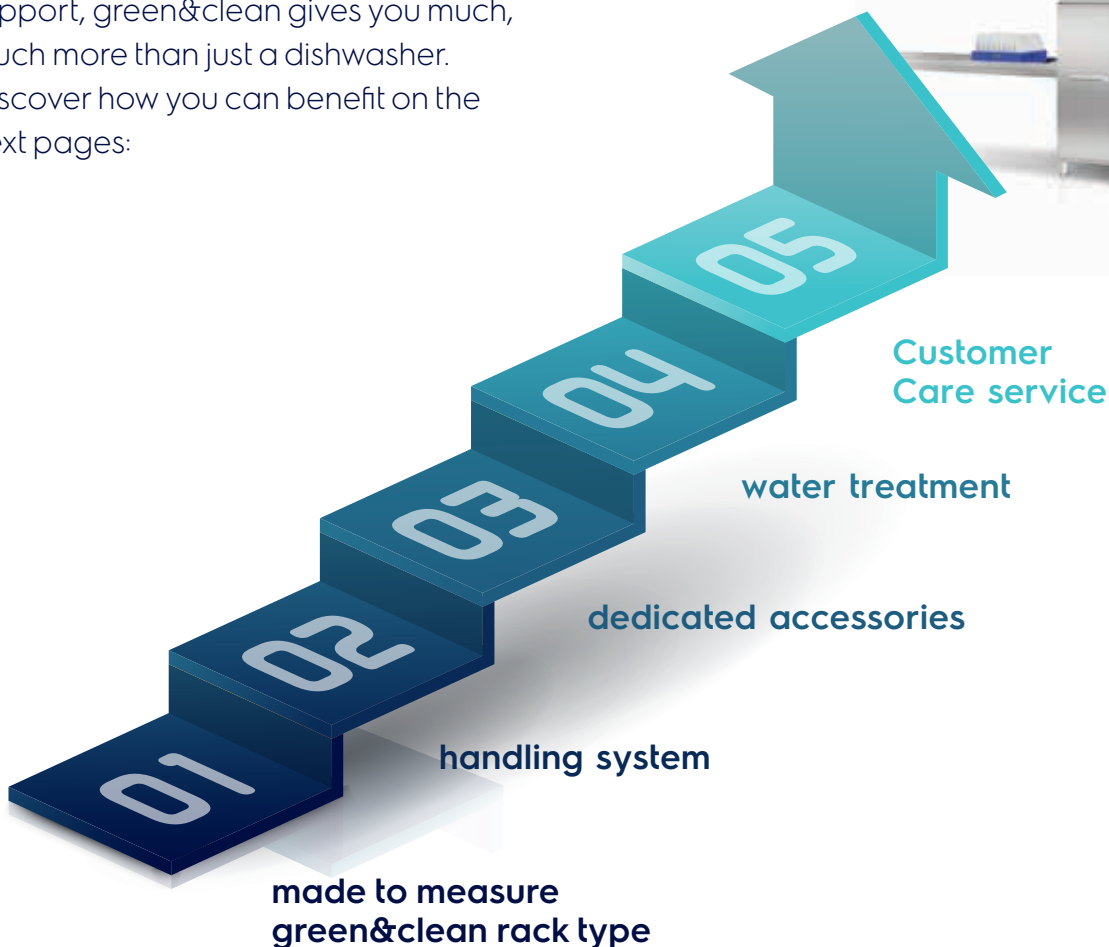

So much more than just a dishwasher.

Find out more on the following pages

From customization and upgrades at any time, to accessories and after-sales support, green&clean gives you much, much more than just a dishwasher. Discover how you can benefit on the next pages:

Step 1.

Make it to measure

Add various custom options and upgrades whenever you like, even on-site

First select the right combination for your needs

150
racks/hr

washes 200 to 500 full meal sets in 2 hours

Minimum Power requested

CO₂ heat pump with
NATURALLY VENTLESS

ESD model

15,4 kW

20,8 kW

200
racks/hr

reduces labor cost thanks to the pre-wash module

17,3 kW

22,7 kW

250
racks/hr

increases efficiency and speed with the large pre-wash module

20,4 kW

25,8 kW

300
racks/hr

washes 400 to 1000 full meal sets in 2 hours

20,8 kW

26,2 kW

green&clean rack type dishwasher grows with your business

Creating the right green&clean rack type for you couldn't be simpler and as your business grows and changes, the unique modular system means that green&clean rack type

dishwasher grows with you. Start with the basic wash and drying modules and add upgrades and customizations at factory level or on-site, whenever you like

Then select the right drying solution

No dryer

no need for extra drying beyond the natural evaporation generated by the hot temperature of the wares

No extra space needed

Medium Dryer

medium capacity, recommended for dishes, fitting straight line set-ups

Corner Dryer

medium capacity, recommended for dishes, saves space thanks to the front or back exit direction

Large Dryer

medium capacity, recommended for glasses

Two dryers in any combination

large capacity, suitable for glasses, stainless steel containers, plastic boxes and trays

Step 2. Streamline your dishwashing area

Scan to build the made to measure handling system combination from the numerous options available

20

Pre-wash table options

available in any length up to 1.6m

17

Roller conveyor options

available in any length up to 2.6m length

3

Loading/unloading table options

available in any length up to 1.6m

53

Sorting table option

available both manual sorting and automatic sorting for up to 6 racks

9

Curve table

available both in 90° and 180°

28

Complete cord conveyor elements

for both trays and racks to be combined in any layout

Step 3. Select your accessories

Scan to choose from our selection of dedicated accessories and consumables to fulfil your dishwashing needs

15
Glassware
basket types

3
Cutlery
and utensil
holder types

5
Plate
basket types

4
Tray
basket types

Step 4. Water treatment

Sparklingly clean wares are about using the right detergent, rinse aid and water. Choose your water treatment and ask to your local supplier the proper solution

Step 5. All the support you need

Your satisfaction is our satisfaction. Anything you need is always available thanks to an extensive Customer Care global network with over **2,000** Authorized Service Partners in more than **149** countries. **10,000** professional technicians and over **55,000** spare parts in stock are ready to be delivered around the world in **24-48 hours**. We are always near, always there for you

Consistent, reliable performance

Energy efficiency makes all the difference. High performance and food safety are guaranteed over time with Electrolux Customer Care providing expert periodic maintenance and **genuine spare parts**

Easy chemical connection

Fast, easy and foolproof external connections for chemical dispensers. No need to open panels or drill holes

We take care of your green&clean

Peace of mind with Electrolux Professional Customer Care

Alois Kröll, Hotel Manager

Almhof Hotel

Hotel
Nauders
Austria

The main target was not only brilliant results, but also the environment in the kitchen especially for the staff when standing in front of the machine. To invest in another Electrolux machine needed no discussion; the service in our area is excellent. Since we installed the new machine, there hasn't been a single down day.

**"600
racks/day
works solid
6 hours"**

On a typical match day we do about 1800 covers. Our main challenge is making sure all our customers are fed pre-match. The green&clean rack type machine during service has been fantastic and has saved us a lot of time with not having to polish at the other end of the cycle. It leaves us time to concentrate on more important things. For us, it's just plug&play.

Matt Whiteman, Sous Chef

“1000 racks/day works solid 13 hours”

Camilla Berglund, Head Chef

Bergums skola

School
Olofslund, Västra Götaland
Sweden

With our previous rack type we had problems with the ventilation. We heard about a new VENTLESS SOLUTION from Electrolux. Our working environment has improved significantly, with much less humidity thanks to the new green&clean rack type. Moreover, we are happy with the result: much better rinsing and the plastic plates are finally dry.

**“500
racks/day
works solid
3 hours”**

Business, Transport & Industry

With the lowest running costs in the industry, certified sanitation, low-maintenance and guaranteed performance all day every day, green&clean rack type dishwashers are great for the environment but even better for your bottom line

Lowest running costs in the industry

Save up to €3.240* a year. Using just one of glass of water per rack, green&clean's innovative rinse module uses less water, less electricity, less detergent and less rinse aid
